Tejas' Vision & Our Journey so far

- **Our vision: “Create a Top-Tier Global Telecom and Networking company from India”**
- Tejas 1.0: Started in year 2000, with a highly-talented team with an ambitious dream
 - First-generation entrepreneurs, backed by world-class VC/PE investors
 - Focused on R&D to create globally competitive, award-winning optical networking products
 - Built end-to-end product lifecycle processes - technology, sales, customer support and manufacturing operations
 - Achieved significant customer success- products deployed in several countries worldwide
- Tejas 2.0: Where we are today- a successful “platform” for world-class telecom products
 - First deep-tech, product company to get publicly listed in India in 2017
 - Increased presence in Indian market- both in Government as well as Private telcos
 - Expanded international sales- customers in more than 75 countries
 - Expanded product portfolio beyond optical transmission; added broadband access on fiber (FTTX) and wireless (LTE)
 - Rich IP portfolio of 349 patents, 300+ silicon IP and Millions of line of field-proven software
 - Strong customer endorsement in the form of run-rate, repeat business
 - Established a successful track record of cutting-edge, high-quality products that can compete with the best in the world!

Opportunity: Tejas 3.0

- New capex cycle driven by growth of data consumption, rollout of 5G and Fiber-based broadband networks
- Large addressable market opportunity globally- telecom equipment is a \$150+ Bn industry
- Geo-political Developments have created a need for “trusted” telecom products in many countries
- Large home market in India, with favourable Government policies for “Atmanirbhar Bharat” in telecom
- Software-ization of networks, Emergence of “open” architecture and new technology standards (5G etc.)
- Leverage world-class technology talent in India, having the capability of building cutting-edge products
- Unique business model- India-based R&D cost leverage, asset-light manufacturing model
- What does it take to accelerate our vision and reach our true potential
 - Global Branding and relationships
 - Balance Sheet Strength
 - Confidence of global Tier-1 telco customers for large contracts
 - Investments in R&D through organic and inorganic routes
 - Global economies-of-scale in hardware manufacturing
