said that consumption of poultry products has not been hit so far even as several states have sounded an alert to contain the H5N8 virus strain of bird flu. The Centre has issued a bird flu alert in states such as Himachal Pradesh, Rajasthan, Haryana, Kerala and Madhya Pradesh after the sudden death of birds in large numbers.

Suresh Chitturi, vice-chairman, AIPBA and chairman, International Egg Commission, said that the consumption of poultry products has not been impacted so far. "We have to wait and watch and see how this is being projected. The association has approached the government to issue a clarification in this regard," he said. —FE BUREAU

### CIL's e-auction booking to hit all-time high of 120 MT

FE BUREAU  
Kolkata, January 6

**MINING BEHEMOTH COAL**  
India (CIL) may close the current fiscal, booking 120 million tonne (MT) coal for e-auction, the highest ever since coal sales began through the auction route. This is near double the bookings of 66 MT made for e-auction last fiscal, surpassing the company's earlier estimates of e-auction booking for the ongoing fiscal.

CIL official said, "the company booked 13.1 MT for e-auction during December this fiscal. Even if the same amount is booked each month for the remaining three months this fiscal, e-auction booking will cross 120 million tonne."

CIL booked around 11% of its total production at 602 MT, for e-auction in 2019-2020. If CIL is able to reach its production target of 660 MT, e-auction bookings will be more than 18% this fiscal.

official, CIL's efforts to book increased volumes of coal under e-auction, paid off in bolstering sales revenue. In the Covid-induced pandemic additions over the notified price were narrowed down helping the company scoring a strong 76.2% volume growth during the April-December period.

The PSU miner booked 81.4 MT coal under five auction windows progressively up to December, displaying a robust 35.2 MT volume expansion compared to 46.2 MT it booked the same period a year ago. Beginning October of the current fiscal, CIL introduced special spot auction for coal importers, under which it had already booked 7.3 MT in three months.

has also been gaining steadily since October with CIL as whole netting a 15% premium during April-December period.

Among the subsidiaries, Eastern Coalfields clocked the highest 40% increase over the notified prices followed by Central Coalfields and Bharat Coking Coal, registering 23% and 22% premium over the notified prices, respectively.

"We have identified specific mines in ECL, BCCL, CCL and SECL from where the response has been positive" a CIL executive said. Non-power sector consumers, under an exclusive auction window, booked 19.8 MT during the first nine months of the ongoing fiscal against 6.8 MT the sector booked during the same period a year ago, registering a three-fold increase.

For December, the company allocated 13.1 MT of coal surging ahead with 72% growth compared to 7.6 MT booked during December last fiscal. Premium earned over the notified price was 25%.

### Icra's outlook for thermal power sector stays negative

FE BUREAU  
Kolkata, January 6

**EVEN AS ELECTRICITY** demand across India is likely to increase in FY22, Icra's credit outlook for the generation and distribution segments of the thermal energy sector continues to remain negative. But the transmission segment's credit outlook remains positive because of timely payment realisation. Icra's credit outlook for the renewables remain stable given the fact that renewables would make for 65-75% of the total energy basket in the next five years.

All India electricity demand, expected to grow between 6% and 7% in FY22 against an estimated decline between 2% and 2.5% in FY21, would result in an improvement in all-India thermal PLF likely at 57-58% in FY22 against an estimated PLF level of 53-54% in FY21.

Sabyasachi Majumdar, group head & senior V-P - Corporate ratings, Icra, said despite an improved PLF in FY22, it is still

### Cidco to hand over Navi Mumbai metro work to Maha Metro

FE BUREAU  
Pune, January 6

**THE CITY AND Industrial Development Corporation (Cidco) is handing over the Navi Mumbai Metro Rail project to the Maharashtra Metro Rail Corporation (Maha Metro). The ₹7,633-crore Navi Mumbai rail project which was being implemented by Cidco has faced delays.**

Maha Metro officials confirmed that they had meetings with Cidco officials regarding this and the Cidco board had approved this. The Maha Metro board will meet to discuss and approve taking over this additional work, the official said.

Maha Metro is currently executing the Pune Metro as well as the Nagpur Metro project. Civil construction work needs to be completed on Line 1 and Maha Metro would have to complete this work and talks have been on with Cidco over

this, the Maha Metro official said. This Line 1 was to be completed in January 2021 and was to link Belapur to Talaja.

Cidco made this announcement on Tuesday and said it was due to the pandemic and some other issues, work on the stations had lagged. This part of the project was worth around ₹3,000 crore. The project is being executed in phases with two more lines expected to be added.

Maha Metro has been able to make considerable progress with the ₹11,400-crore 31-km Pune Metro project. Pune Metro had started much later than the Navi Mumbai project, but Maha Metro MD, Brijesh Dixit said that he was targeting a 2021 start for the Pune Metro operations with half the work on the project already complete. The project will cross significant milestones this year and the first of the coaches will arrive in Pune by May 2021, Dixit said.

subdued and new power purchase agreements (PPAs) for thermal IPPs (independent power producers) are not in view. Modest tariffs in the short-term power market makes credit outlook of the thermal power segment negative as also problems in 80% of the 40 GW stressed thermal assets in the private sector remains unresolved. But the credit profile of the central power generating utilities get the support for long-term PPAs under the cost-plus tariff structure and strengths arising out of sovereign parentage, Majumdar said.

The credit outlook remains negative for the state discoms for their continued financial weakness, further weakened by the sharp decline in revenues from the commercial and industrial customers during the first half of the current fiscal following lockdown restrictions. Despite demand recovery, the discom losses are likely to remain at more than ₹75,000 crore in FY22 with inadequate tariff revisions, high distribution losses and additional interest cost on the loans availed under the liquidity support scheme.

The Centre's ₹1,20,000 crore scheme, which came as loans from the Power Finance Corporation and Rural Electrification Corporation for clearing dues to the gencos, was the fourth such scheme over the past 15 years but discoms' efficiencies and financial health didn't improve. The state governments' pace of reforming and the utilities' focus to ensure operational improvements still remains the critical areas, it said.

The credit outlook for the renewable energy is stable due to continued policy support from the Centre, presence of credit-worthy central nodal agencies as intermediary procurers and improvement in tariff competitiveness, as reflected from the recent new low of ₹2 per unit in the solar power segment.
